[No. 5212.]

For the prevention and cure of  
SCURVY AND MALIGNANT FEVER  
is recommended  
**DR. J. KENNEDY'S ANTI-BILIOUS PILLS**  
His Medicine has been attended  
with a degree of success highly grateful  
to the feelings in several parts  
of the West Indies and in the Southern  
Middle States, &c.  
The testimony of a number of persons  
has been adduced, who have reason to be-  
lieve that a timely use of this salutary re-  
medy has, under Providence, preserved  
lives when in the most alarming cir-  
cumstances.  
The facts of this conclusive nature speak  
in favour of a medicine than con-  
sists of pompous eulogy founded on  
an assertion.  
It is not indeed presumptuously pro-  
claimed as an infallible cure, but the inven-  
tor has every possible reason that can re-  
sult from extensive experience for be-  
lieving that a dose of these Pills taken  
in every two weeks during the pre-  
sence of our bilious fevers, will prove  
infallible preventive; and further,  
in the earlier stages of those diseases  
or use will very generally succeed in  
restoring health, and frequently in cases  
seemed desperate and beyond the pow-  
er of common remedies.  
The operation of these pills is perfectly  
safe, so as to be used with safety by per-  
sons in every situation and of every age.  
They are excellently adapted to carry  
superfluous bile and prevent its mor-  
tifications—to restore and amend the  
system—to produce a free perspiration  
and thereby prevent colds which are of-  
ten fatal consequences. A dose never  
fails to remove a cold if taken on its first  
appearance: they are celebrated for re-  
moving habitual costiveness—sickness at  
stomach and severe head-ache—and  
ought to be taken by all persons on a  
change of climate.  
They have been found remarkably effi-  
cacious in preventing and curing disor-  
ders attendant on long voyages, and  
could be procured and carefully preserv-  
ed for use by every seaman.

**Hamilton's Elixir,**  
A sovereign remedy for colds, ob-  
stinate coughs, asthma, sore throats, ca-  
rries, and approaching consumptions.—  
To parents who have children afflicted  
with the **HOOPING COUGH**, this elixir  
is one of the first magnitude, as it af-  
fords immediate relief, checks the pro-  
cess, and in a short time entirely re-  
moves the most cruel disorders to which  
children are liable. The Elixir is per-  
fectly agreeable, and the dose so small  
that no difficulty arises in taking it.

**Hamilton's Grand Restorative,**  
Is recommended as an invaluable me-  
dicine for the speedy relief and perma-  
nent cure of  
Nervous Disorders, Violent cramps in  
the stomach and  
Consumptions, Indigestion  
Loss of appetite, Melancholy  
Impurity of blood, Gout in the stomach  
Hysterical affection, Pains in the limbs  
and debility, Relaxations, etc.

**Hamilton's Essence and Extract of  
Mustard.**  
A safe and effectual remedy for acute  
and chronic rheumatism, gout, rheumatic  
gout, palsy, lumbago, numbness, white  
swellings, chilblains, sprains, bruises, pain  
in the face and neck, etc. etc.

**Lee's Ointment for the Itch.**  
Warranted an infallible remedy at one  
application, may be used with perfect  
safety by pregnant women, or on infants  
a week old, not containing a particle of  
mercury or any dangerous ingredient  
whatever, and not accompanied with that  
tormenting smart which attends the ap-  
plication of other remedies.

**Hahn's true & genuine German Corn  
Plaster.**  
An infallible remedy for corns, speedily  
removing them root and branch, with-  
out giving any pain.

**The Genuine Persian Lotion.**  
So celebrated among the fashionable  
throughout Europe, is an invaluable cos-  
metic, perfectly innocent and safe, free  
from corrosive and repellent minerals,  
the basis of other lotions, and of un-  
paralleled efficacy in removing blemishes  
of the face and skin, freckles, pimples,  
inflammatory redness, scurfs, tetter, ring-  
worms, sunburns, prickly heat, &c.

**Hahn's genuine Eye Water,**  
A sovereign remedy for all diseases of  
the eyes, whether the effect of natural  
weakness or of accident.

**Tooth Ache Drops.**  
The only remedy yet discovered which  
gives immediate and lasting relief in the  
most severe instances.

**Lee's Infallible Ague and Fever Drops**  
For the cure of agues, remittent and  
intermittent fevers.

At the place of sale pamphlets  
may be had gratis, describing cures per-  
formed by the above medicines; the num-  
ber, importance and respectability of  
which, fully justify every article of this  
advertisement.

**Proposals**  
FOR Publishing by Subscription, and  
now ready for the press, a series of  
historical volumes, which when finished  
will assume the title of  
**Universal History Americanised;**  
Or, an historical view of  
Europe, Asia, Africa and America,  
from the earliest records to the nineteenth  
century—with a particular reference to  
the state of society, literature, religion,  
and form of government in the United  
States of America.  
BY DAVID RAMSAY, M.D.  
"Life is so short and time so valuable,  
that it were happy for us if all great  
works were reduced to their quintes-  
sence."  
Sir William Jones.

**PROSPECTUS.**  
ASIA.  
The Asiatic part of this work contains  
a general view of the antediluvians—of  
the general deluge—of the settlement  
of the Globe after that great event—of  
the primitive postdiluvian nations which  
were formed in Asia, the cradle of the  
world. Their various ramifications, re-  
volutions, and of the general course of  
Empire.

**AFRICA.**  
The African part, contains a concise  
history of Egypt, Carthage, Numidia,  
Mauritania, Abyssinia, of the Pictorial  
States, and the Hottentots, with a group-  
ed view of its uncivilized settlements.

**EUROPE.**  
The European part, contains the his-  
tory of Greece and Rome, from their  
origin to their dissolution—of the various  
nations which were conquered by them—  
and of the nations by which the Romans  
themselves were finally conquered, and  
of the nations which were formed from  
the fragments of the Roman Empire, and  
the various revolutions of the latter, to-  
gether with a view of the nations which  
never were subjected to the Romans.

**AMERICA.**  
The American part, contains a general  
history of the Western continent, under  
the heads of Free, European, and Abo-  
riginal or unconquered America. The  
first contains a history of the United  
States, from their first settlement as  
English Colonies, till the present time.—  
The second, of all parts dependant on  
Europe.—And the third, of all that are  
still owned by the Aborigines.  
It is expected that the whole will be  
comprised in 10 or 12 octavo volumes,  
of between four and five hundred pages  
each—to be printed in Philadelphia,  
on good paper and fair type, for \$3  
1-3 per volume, in sheep binding, or  
\$4 1-3 Calf Gilt, to be paid for on deli-  
very.

**AUTHORITIES.**  
This work has been in contemplation  
upwards of 40 years. The project of  
it was conceived in 1786, on reading the  
Universal History, then recently edited  
in 60 volumes, by a society of gentlemen  
in England. The original idea of ex-  
tracting the quintessence of that vo-  
luminous work, which contained the  
most complete system of history the  
world had then seen, has ever since  
been enlarging and improving by an  
attentive perusal of the histories writ-  
ten by Robertson, Hume, Gibbon, and  
other modern authors—of the Asiatic  
researches—of the works of Sir William  
Jones, and other learned Orientalists—  
the publications of intelligent travellers,  
who, in the course of the last half cen-  
tury have explored almost every region  
of the Globe. These collectively have  
thrown a blaze of light on countries com-  
paratively unknown, and on portions,  
both of ancient and modern history which  
were confused and obscure at the period  
when the writers of the Universal History  
published their work. The arrange-  
ment of materials collected from these  
sources commenced in the year 1780,  
when, in consequence of the surrender  
of Charleston to Sir Henry Clinton, the  
author was suddenly released from a sea  
of business and sent as a prisoner of war  
to the British Garrison then in St. Au-  
gustine, and there confined for eleven  
months, without any peculiar employ-  
ment. Steady progress has been made  
for the last ten years in correcting and  
transcribing the work for publication.

**UNITED STATES.**  
The History of the United States is  
given at full length—that of foreign coun-  
tries is more or less expended or con-  
tracted in proportion to the intrinsic im-  
portance of each—its tendency to illus-  
trate portions of Holy Writ—the Greek  
and Latin Classics—and also in propor-  
tion to its connexion with the U. States,  
or as furnishing useful practical infor-  
mation to its citizens, or as the paternal  
soil of its ancestors.  
The above sketch of the nature and  
objects of this immense work, which has  
occupied the attention of the Author for  
upwards of 40 years, was found among  
his papers, and is now given to the pub-  
lic in his own words. Since that period,  
a few chapters have been added by the  
Reverend SAMUEL STANHOPE SMITH,  
which brings it down to the close of the  
last war.  
The publication commences with a  
third impression of the History of the U-  
States, in three volumes, which is all that  
has ever appeared. The whole will not  
be delivered under 15 or 20 months. It  
is proper to state, that the gentlemen  
who have the direction of it are neither  
booksellers nor printers, and receive no  
pecuniary consideration for their trouble  
—but are willing to make the necessary  
advances to carry it into execution pro-  
vided the sale is warranted by public pa-  
tronage. The profits arising are to be  
appropriated for the support and educa-  
tion of his children, four of each sex: to  
them its success is a matter of deep im-  
portance.

## FOREIGN ARTICLES.

To the politeness of JAMES BUCHANAN, Esq. British consul, we are indebted for a Londonderry paper of the 10th March, from which we copy the following articles. The Proclamation of CHARLES JOHAN, on ascending the throne of Sweden and Norway, will be read with interest.—[N. York Com. Adv.]

In the house of commons on Monday the 2d inst. Lord Palmerston, submitted the army estimates for the current year. It appears from his estimate, that the reduction in the expense of the army, comparing the present with the past year, would amount to 188,000l. while the total reduction of the charge in all the departments connected with our military establishment, would be no less than 448,000l. The diminution in the effective number of men that was to be maintained was estimated at 22,000l. On the other hand there were some augmentations of our military expenditure. An increase of 17,000l. would take place in the charges for the volunteer corps, principally arising from additional allowance to that description of force. But, the most material increase arose from extended claims upon Chelsea and Kewinham hospitals, which would create an excess of 101,000l.

Rumors are in circulation of disturbances having broken out in Sweden, in consequence of Bernadotte having succeeded to the throne of that kingdom. It is announced, as official, in the political circles of Paris, that the Empress of Austria and Russia, with the King of Prussia, and Duke de Richelieu, and Lord Castlereagh, are to meet at Dusseldorf in the course of next autumn, for what object is unknown.

By letters from Paris, it appears, that a confident belief is entertained there, of a treaty having been actually concluded between the allied sovereigns & France, for the evacuation of the French territory by the army of occupation in the approaching summer, and for the arrangements of the debts due to the allies. The sum fixed is said to be 30 millions of francs (or six hundred millions of francs) between 24 and 25 millions sterling.

Hugh McCabey, John Kierman, and James Campbell, were tried on the 21st of March for the murder of the Lynch family. They were found guilty, and sentenced to be hung.

Count Platoff, the celebrated Hetman, of the Cossacks, died a short time since at Novotcher Rask.

**SWEDEN.**  
A Hamburg mail arrived yesterday evening with papers to the 18th instant. They bring a confirmation of the death of Charles XIII. of Sweden; and of the undisturbed accession of the crown prince. The late sovereign expired on the evening of the 5th. The council of state was immediately assembled, and the crown prince having signed the declaration prescribed by the constitution, the members of the council, with the civil and military authorities, took the oath of allegiance to their new sovereign, Charles John. On the 6th he was proclaimed king in the usual form. Next day a plenary meeting of the diet was held, to which the king and prince Oscar, with the great officers of state, repaired in solemn procession. Being seated on the throne he received the oaths of allegiance of the four estates of the realm; the ceremony commencing with Prince Oscar, who, thereupon, with the land marshal, arch-bishop, and the two other speakers, kissed hands. His majesty then returned to his apartments in procession, amidst the cries of "long live the king." On the following day the court-mourning commenced for the late sovereign.—The following is the proclamation passed by the new king:—

"We, Charles John, by the Grace of God, King of Sweden and Norway, &c. to all our faithful subjects living and dwelling in Sweden, greeting.—As we, in consequence of the proposal of our late beloved father, our august king and sovereign, Charles XIII. to the estates of the kingdom of Sweden, were unanimously chosen on the 21st of August, 1810, his successor on the Swedish throne, and at the same time invited by the unanimous voice of the king and the people, accepted this honorable call, though attended with great responsibility. We felt a particular impulse thereto, in the events wholly foreign to us, which decided your choice, and which, without our having had any share in them, solely directed your free and independent resolutions.—We were thereby taken from the repose which had been our sole aim, and immediately on our arrival here your deceased king received us with the dearest proofs of confidence and friendship, and adopting us as his son, and impressing on your hearts a more holy seal, which could not increase our obligations and our devotedness to our new country. During the years that have elapsed since that event, so interesting to our heart, we have ex-

erted ourselves to fulfil towards that never-to-be-forgotten and ever-beloved prince, all the duties of a faithful subject and an affectionate son, and have daily received in his paternal never-changing tenderness, the noblest recompense of our endeavors. This happiness we are no longer to enjoy. Death has deprived us of him, who in this world was attached to us with the most faithful love. From our filial bosom, from the arms of an inconsolable parent, from the circle of sorrowing relations, from a people of whom he has been twice the deliverer, he departed with the calmness of a sage, with the peace of a good conscience, attended with the consolations of his blessed religion, and the tears of gratitude, to receive his eternal reward in a better world.—We have received his last blessing upon you, which he pronounced on the verge of life with the same energy as in his most vigorous days, and in his dying hand we took the sacred oath to inherit, together with his crown, his tender care for the country, his ardent wishes for your welfare.—As we now, in consequence of this affecting event, ascend the united thrones of Sweden and Norway, to govern both kingdoms according to the fundamental laws of each, which were approved by the estates of the Swedish Diet, on the 6th of August, and by the Corting of the kingdom of Norway, on the 31st of July, 1815, we have given the royal declaration, fixed by the King and the States of the kingdom, in the decision of the Diet of May 2, 1810. Since we first trod on Swedish ground it has been our highest care to defend your liberty, your privileges, and the independence of the kingdom. Providence crowned our endeavors with success. In the present melancholy hour, it was therefore our first duty, as well as our first thought, to implore its powerful support in our future actions. From your unanimity and patriotism we expect the most powerful assistance. In faithful union with your king, who is bound to you by the laws, you will continue to be free and independent.—In this manner you will most worthily honor the memory of the prince whom we lament; and may his blessed spirit for ever protect a happy people, who can say upon his grave, with pure heartfelt gratitude, "through him we possess the laws which we ourselves made, the free soil which covers the bones of our fathers, and the bright prospect of our lot, which his virtues and his self-denial have prepared for us." We remain affected to you all, and each, with royal favor, and recommend you to God the Almighty.

"CHARLES JOHN.  
"G. VON WETTERSTEDT."

**Frankfort, Feb. 7.**  
The baron d'ustet, Russian envoy extraordinary and minister plenipotentiary to the Germanic Confederation, has transmitted to the Diet a letter from the emperor of Russia, in which his imperial majesty says, "All the nations of Europe are closely united by the indissoluble bonds of peace and maternal concord, founded on the imperishable basis of the religion of our Saviour. The tranquillity, welfare, and independence of the Germanic Confederation will form in future a new rampart for the security of Europe. In directing all its efforts to the accomplishment of so salutary an object, the Diet will effectually contribute to consolidate the work of the Almighty confided to the common care of all sovereigns and of all states, united for the same object, which is solely the consolidation of political and social order, re-established in Europe by the negotiations of Vienna and Paris. Uniting our wishes to the wishes of so many sovereigns, full of hope of seeing realized those important results, we congratulate ourselves on being called upon to enter into relations of friendship with the high and most serene Germanic Confederation represented by the Diet, towards which we think it our duty to express by these presents, our constant and invariable consideration."

The following account of the loss of the ship *Minerva*, Sketchley, from Liverpool for this port, we have extracted from Gore's General Advertiser.

[N. York Gazette.]

**The ship *Minerva*.—**Extract of a letter from Capt. William Sketchley, of the ship *Minerva*, dated from Liverpool, Lech Broom, 27th February, 1813, which presents the most distressing account of the effects of a gale which the vessel encountered soon after she left this port:—  
"I left you on the 13th inst. and on getting down to the Skerries, the wind blew hard from the S.W. I bore up that night for the north channel, and on the night following was past the Mull of Cantire, the wind still prevailing from the S.W. I pushed the ship to the westward when an opportunity offered, or the wind allowed me to carry canvas, but was generally under bare poles the greater part of the time till the 21st inst. in lat. 58, long. 20; on this date, at three o'clock in the morning, then lying two under two reefs of the mizen blowing tremendously, the sea foaming beyond all description, she was struck with one too hard to describe; which carried away my main and mizen masts by the board, and every thing above the deck, with one of the crew, bulwarks, rails, stanchions; tore the covering boards up, and at that moment I expected the foremast and bowsprit to follow. The shock in these parts was so great as to start the cutwater three

inches from the main stem, head, head rails all gone. The ship falling on the wreck of the spars sufficient to bulge her, I got her off before the wind to clear her of the wreck, and to prevent her from filling as she was all open in her upper works; in this horrid situation she was nooped by the sea, stove in the dead lights, swept the deck fore and aft, washing poor Malson (the mate) and one of the crew overboard, not to be regained, expecting every moment she would be foundered; the sea making a constant breach over the deck and in at the cabin windows; she had at least five feet water in her hold, my crew nearly disabled and diminished in number, it was impossible to leave securing the cabin windows for the pumps—we secured them in the best possible way with bales of blankets, beds, and every moveable thing, the sea occasionally driving every thing in upon us. The gale still continuing in all its fury, I set the clews of the foresail to carry her off to sea; this blew into ribbons, yet it saved her, the wreck parting from the ship. The gale began to abate on the 23d, when we succeeded in freeing the ship, not a particle of canvas left except the foretopsail attached to the yard broke in slings, this I shifted as soon as I could get my men (all worn out) to bend it for a foresail, and with this sail arrived in this harbor, where we have met with the most kind and friendly assistance, to a most extraordinary degree—men of all descriptions vie with each other who shall do the most gratuitously. As the post leaves this place once a week, and that on a Monday, I send this by an express to a town 23 miles distance, to meet the southern mail, and am informed you will receive it in six days. The ship in her bottom appears perfectly tight."

Extract of another letter from Capt. Sketchley, dated Liverpool, 5th March, 1813, to Messrs. A. & S. Richards, Liverpool.

"How is it possible for me to tell you, in addition to my former distressed account, that the ship is burnt down to the water's edge. Last night, at 7 o'clock, (Wednesday) whilst in my room, having been confined there from my former suffering, the cry of fire was heard from the ship; crippled and ill as I was, I immediately got on board, and found the fore part of between decks on fire, and so far advanced that it was impossible to get it under, though there was every assistance rendered from the shore. We used every effort to save her till the decks were burning through; we directed our attention to save what part of the cargo we could from the after hatchway, and this part of the ship did not leave till the flames followed me up the companion I had previously scuttled her drift. We cut the cable, and let her drift ashore in shallow water. The tide rising, she took the ground, then on fire, and aft, the foremast falling soon after. She continued burning till the water reached the fire: the after part of the ship under water; the cargo totally destroyed, with the exception of about 20 bales, and these were thrown overboard and drifted on shore. The bottom of the ship is full of hardware in bulk; the packages destroyed.

You are aware of my having lost all that appertained to the Cook house; I procured here a large pot for the use of the crew, and the only means of using it was by making a deep platform at least three feet from the deck, of large stones and sand, which I considered perfectly safe, and as much so as if I had my proper cabin, but by some fatality it must have penetrated through this to the deck, and finally through to between decks before it was discovered.—My bodily sufferings prevented me from being there at all times, but I was precise and particular in my directions to my second officer, and a very careful man from the shore to assist him, as well as the crew in taking care of the ship; also to the custom-house officer, who was put on board at my solicitation, for the preservation of the cargo, and to prevent embezzlement. More could not be done; all this is too much for me—it has almost annihilated me. I have as much presence of mind in intricate situations as any man, but a repetition of evils will try the soul of the strongest."

The London Courier states that the person who attempted to take the life of the duke of Wellington has been arrested. Cantillon is his name. He had been in the army, and it is supposed was chosen by the authors of the plot on account of his daring intrepidity, and of his attachment to those principles by which Europe has been made the scene of such butchery and bloodshed.

There is nothing further in the Paris papers respecting the conferences between the duke of Wellington and the foreign ministers on the liquidation of the foreign debt.

Lord Cochrane has caused a steamboat to be built, in which he intends to make a voyage to the North Pole, and from thence to Behring's Strait. His lordship is sanguine in the hope of being the first to accomplish the north west passage over the Pole, and thus to get both of the parliamentary rewards of 25,000l. one half of which will be nearly expended in the outfit.

Three per cent consols in London were 78 7/8.

In London, March 19, new dollars 5s 5d.

The British parliament adjourned on the 19th of March to the 26 of April. The population of London is stated at 1,120,000.

The London papers mention the dreadful gales on the 5th and 6th of March, in which a great many vessels were shipwrecked on the coast, and considerable injury sustained on land. The whole country seems to have severely felt the effects of the gales. Houses in London were unroofed, chimneys thrown down, and several lives lost, &c.

## Alexandria, April 28.

From the N. Y. Com. Adv. April 23.

**THE FRIGATE CONGRESS.**  
We have been obligingly favored with the following extract of a letter from a gentleman on board the Congress. The letter was brought to Bristol, R. I. by the brig *Id*, from Rio Janeiro, and was received in town by this morning's eastern mail. The extract is interesting, as it contains the first information from the frigate since her arrival in America.

"U. S. Frigate Congress, Rio Janeiro, Feb. 7."

"Dear Sir.—We arrived here on the 29th of January after a passage of 57 days. Nothing worthy of remark occurred during the passage. We leave here to-morrow for the river La Plata, which will be as far south as the Frigate will proceed."

"The harbor of Rio is good, spacious, and very easy of access. I cannot say much in favor of the city. The streets are narrow and irregular. The population is said to be from 100 to 120 thousand. Yesterday the king was proclaimed king of Portugal, Algarve and Brazil. You may look for the return of the frigate in June."

## A HERO FALLEN.

It is with feelings of the deepest sorrow and regret that we perform the painful duty of announcing to the public the death of colonel GEORGE ARMISTEAD, the gallant defender of Fort Mifflin. On this melancholy occasion the recollection of the ever memorable 14th September naturally occurs to our minds—when the *Star Spangled Banner* waved in proud defiance to a formidable foe; and, after a furious bombardment of 23 hours, continued to float triumphantly on the ramparts—then it was that Baltimore was saved, and a wreath of never fading laurel encircled the departed hero's brow.

Participating in the general grief, the brigadier general ordered out the 5d brigade to attend the funeral, which took place yesterday (Sunday) afternoon with the honors of war. The procession of military and citizens was the most numerous ever witnessed in Baltimore. The reverend clergy announced the mournful event to their respective congregations at the conclusion of the morning service. The churches were closed in the afternoon, and a city's tears bore witness to the high estimation in which the deceased was held as a man, a citizen, and a soldier.

He is gathered to his fathers, and to the fathers of his country. He is promoted to higher honors than earth can bestow.

The following was the order of procession:

- Music in front.
- Troops from the Fort, and 4 companies of volunteers with arms.
- Clergy.
- Physicians.
- Six colonels, pall-bearers.
- The colonel's horse caparisoned.
- Relatives.
- Volunteers without arms.
- Officers of the militia, and officers of the 14th brigade.
- Generals Smith and Stricker.
- Governor, and generals Harper, Ripley and Winder.
- Officers of the navy.
- Mayor and city council.
- Marshal and United States' attorney, and the collector and officers of the customs.
- Judges of the city and of the county courts.
- OTTEBENS.
- Clergy and congregations of the African churches.

[Bal. American.]

The courage and enterprise of American seamen continue themes of European applause. In a late trial in London, their adventurous spirit was declared to be imitable. In a maritime cause, lately tried, the owners of the ship *William*, of Liverpool, contended that they were entitled to recover from the underwriters on her, the full amount of the policy, as

she had encountered so much bad weather, in a voyage from New York, as to be in a sinking state, and was abandoned by the captain and crew. It appeared, that on falling in with two other British ships, the captain and crew of the *William* abandoned her; on which eight superannuated Americans, who were on board the two ships, offered to go on board her, and take the risk of getting her into port. They succeeded, and arrived at Newport; and had one half of her adjudged to them as salvage. The fact of her having been navigated into port, was declared, on the part of the underwriters, to be evidence, that she was not in a sinking state; and on the other hand it was contended that other seamen were not necessarily compelled to undertake such feats of hardihood as were common to Yankee tars.

## The Building Committee.

Committee of St. Paul's Church do not intend to enter into a public dispute with the carpenter whom they have dismissed, but they think it their duty to correct his misrepresentations by stating the following facts:

1. The committee have paid this man the sum of 4,335 dollars, making an average of more than 105 dollars per week; whereas, by contract, they were not bound to pay him more than 60 dollars per week.

The public will decide if this is not a larger sum than is usually advanced on such an amount of work.

2. It is not true that he left the building of his own accord—he was dismissed by the committee in a formal manner in presence of witnesses. So far from his leaving the work voluntarily, he begged in the most humble manner to be forgiven and received again; but he had so long continued to violate the contract in every particular, that the committee could not, consistently with their duty, recede from the ground they had taken.

If he will venture to deny these facts, they shall be proved, and his conduct shall be exposed in detail.

**For Sale.**  
I will sell my property in the town of Alexandria, consisting of a two story Brick House, very convenient and well finished, together with the adjoining Brick Building—the whole in fee simple.  
Also, a small FARM, in Fairfax county, near the Fall's Church, ten miles from Alexandria, and eight from Georgetown, consisting of 100 acres. There is on the said Farm a dwelling house and smoke house, a young orchard of choice fruit, and most excellent water spring. About 15 acres of the said land are in clover—all under fencing. For further information inquire of the subscriber.  
April 15

**350 Acres of Land for sale.**  
The subscriber wishes to sell 350 acres of LAND in the upper part of Prince William county, Virginia, immediately on the road leading from Haymarket to Leesburg, and about 3 miles from Aldie mill, from which latter place there is a turnpike road to Alexandria, distant 33 miles. One half of this farm is covered with a heavy growth of timber, such as white oak, black oak, hickory, locust, &c. The buildings are all new and in good order. As there is a saw mill erecting on an adjoining farm the timber may be converted into plank with convenience. This land is well watered, and none more susceptible of improvement or better adapted to the use of clover and plaster. Persons desirous of purchasing would do well to call and see it, as a great bargain may be had. For terms apply to the subscriber living on the premises.  
N. B. If this land is not sold before the first day of October next, it will then be offered at public sale.

**For Sale or to Rent.**  
THAT extensive and valuable property at the south east corner of King and Henry streets, comprising two STORES and DWELLING HOUSES. The corner store very handsomely fitted up for an Ironmongery and Hardware establishment, lately occupied by Messrs. Richard Slade & Co. and as a stand for first business is equal to any in town. The other store is fitted for the Grocery business. This property may be purchased upon a very liberal credit, or it could be exchanged, at a fair valuation, for property improved nearer to the river. Enquire of  
MANDEVILLE & LARMOUR.  
February 28

**Sully for Sale.**  
THIS Estate, situated in the county of Fairfax, twenty two miles from Alexandria, and the same distance from Georgetown, contains about seven hundred and fifty acres. Little River Turnpike passes through it half a mile from the dwelling house. The situation is handsome, and remarkably healthy; the water is good and abundant. The soil which was originally excellent has for some years past had the advantage of improving husbandry, Plaster of Paris acting with powerful and immediate effect on all grasses and grains. The fields present a good surface for cultivation, and those now untilled are covered with red clover. The orchards are very large and thrifty; the collection of table fruit is choice and various. The mansion is spacious and well constructed; the out-houses are conveniently situated, and the whole have been lately thoroughly repaired and painted. The farm houses, which are all nearly new, are expensive and excellent in their kind.  
For a gentleman of leisure this would be a delightful residence; and a profitable estate for an active farmer. The title is indisputable, and perfectly unincumbered.  
A number of well taught orderly young men, with good stocks and farming utensils of all kinds and the crops of the present year if desired, will be at the command of the purchaser.  
Application may be made to the subscriber living on the premises, next the post-office at Pleasant Valley, in Fairfax County, or to  
FRANCIS LIGHTFOOT LEE.

**600 acres of Land for sale.**  
THIS tract is situated in Westmoreland county, Virginia, adjacent to Mr. Garnett Hunter's Plantation, and contiguous to the waters of the Potomac. The neighborhood is good—water excellent, and very desirable situations for building. A considerable proportion of the land is well timbered, besides a good deal of cedar, pine and other wood, sufficiently convenient to make it an object for those who may be disposed to send it to market—it is nearly equidistant from Baltimore, Washington and Norfolk. Any one wishing to purchase may apply to  
ROGER JONES,  
Alexandria.

Also, a very valuable LOT, containing 140 acres, being a part of the late Mr. John Turberville's tract—within 6 miles of Georgetown, 3 from the Little Falls Bridge, and near to the turnpike leading from thence to Wileys, in Fairfax county, Va. A great proportion of this land is exceedingly well timbered, and that part which is not, is so recently cleared as to be in an active state for cultivation, and already in a productive condition. For terms, apply to PHILIP C. JONES, sq. Leesburg, Va. or to  
R. JONES.  
March 30

**Notice.**  
BEING desirous of having as little trouble as possible in keeping book accounts, I would beg those that deal with me to send orders, and not for less than one dollar at a time.  
I will rent a part of my house for a large wholesale dry good or grocery, or retail, or both, with a good cellar and comfortable room, by the year or otherwise. Or, all the concern I now live at, but not for less than five years; or I will sell the whole at a fair price—80 feet on King-street, and 100 deep. No better stand in the street.  
A very neat little brick house to let in Duke-street, between Patrick and Henry streets.  
ALEX. PERKY.

**Notice.**  
IS hereby given the stockholders of the Fairfax Turnpike Company, that the 4th, 5th, 6th, 7th, 8th and 10th instalments of 5 dollars each on the capital stock of said company are called for, payable on the 15th of March, 1st of April, 15th of April, 1st of May, 15th of May, 1st of June and 15th of June, to Joseph Ingle, Treasurer, Washington, or to Benjamin G. Thornton, Fairfax, Va.  
By order of the Directors,  
DANIEL CARROLL, of Duda. Pres.

**Fan-Sash Making**  
METAL FAN-SASHES, of various descriptions, will be made by the subscriber, at his shop, lower end of Duke street. The want of a Metal Fan-Sash Manufactory in Alexandria, has hitherto been severely felt by builders and others, who have been compelled to make use of wood, which is neither elegant nor durable. The various forms into which the metal can be shaped have given it a decided superiority, and the difference in the price is very trifling. The subscriber has been at considerable expense in procuring the necessary preparations, and relies on public enterprise for success in the undertaking.  
Gentlemen, in the country, by sending the dimensions of their sashes, can have them made at the same price as if in town.

**Valuable Family Medicines.**  
JUST received, direct from the proprietors, the following valuable MEDICINES, all of which have been in use for a number of years past, in almost every part of the United States; have been highly patronized by people of the first respectability; and approved by those who have had occasion to make use of them, for the cure of those disorders for which they are severally calculated.  
Dr. Lee's Genuine (Windham) Bilious Pills,  
Universally known and used throughout the United States as a family medicine. The fame of these pills has become so great, that many have attempted to counterfeit them—to guard against this, the proprietors have procured a stereotype label, and each box of Genuine Lee's Pills will hereafter be enclosed in

one of these labels, with these words on the sides: "Lee's Genuine Windham Bilious Pills," and on the end of the label the words, "Samuel Lee, patentee, &c. I. Thompson, agent, joint proprietor," &c. and should any be offered for sale without said label on them, the purchaser may be apprised that they are counterfeit.  
Dr. Thompson's celebrated Eye Water,  
For the cure of inflamed and sore eyes of almost every description. This valuable preparation comes highly recommended from the most respectable sources. Price 50 and 25 cents a bottle.  
Dr. Rawson's Genuine Itch Ointment,  
A certain and safe cure for that disagreeable complaint, as well as other eruptions of the skin. Price 37 1/2 cents a box.  
Dr. Rawson's Anti-Bilious and Stomachic Bitters,  
For weakly and infirm constitutions. Price 37 1/2 cents a box.  
Hinkley's Infallible Remedy for the Piles,  
A most valuable medicine. Price 50 cents a box.  
Thompson's Aromatic Tooth Paste,  
For whitening and preserving the teeth—it may be used with the greatest safety. Price 50 cents a box.  
Specific Drops for the Tooth Ache,  
Which, in almost every case, gives instant relief in that distressing complaint. Price 37 1/2 cents a bottle.  
Cooley's Vegetable Elixir, for Coughs, Asthma, Consumptions, &c.  
A very valuable medicine in those complaints. Price 50 cents a bottle.  
For sale, in Alexandria, by Dr. Richard H. Little; in Washington City, by Dr. David Ott; in Georgetown, by Dr. John Ott, Otto W. Linthum & Co. and, Nathaniel Jewett.

**James Kennedy & Son,**  
RESPECTFULLY inform the public that they have just received from LEE'S MEDICINE STORE, No. 45, Maiden lane, New-York a fresh supply of the following valuable MEDICINES:  
Hamilton's Worm destroying Lozenges,  
Which have within sixteen years past cured an immense number of persons of both sexes of every age and in every situation, of various dangerous complaints arising from WORMS, and from obstructions or foulness in the stomach and bowels.  
This medicine bears no analogy whatever to others of similar titles so commonly complained of as operating with violence; on the contrary a particular excellence of this remedy is its being suited to every age and constitution. It contains nothing but what is perfectly innocent & is so mild in its operation that it cannot injure the most delicate pregnant lady or the tenderest infant of a week old should no worms exist in the body; but will without pain or griping cleanse the stomach and bowels of whatever is foul or offensive, and thereby prevent the production of worms and many fatal disorders. The lozenges are particularly efficacious in carrying off all gross humours and eruptions, feverish and bilious complaints, and are the safest and mildest purgative that can be used on any occasion.  
Description of Worms, and the symptoms by which they are known.  
Worms which infest the human body are chiefly of four kinds viz.—The Terebr or large round worm; the Ascarides or small maw-worm; the Cucurbit or short flat white worm; and lastly, the Tenia or tape-worm, so called from its resemblance to tape. This is often many yards long and is full of joints. It is most hurtful and most difficult to remove.  
Among the symptoms attending worms are—disagreeable breath, especially in the morning; bad and corrupted gums; itching in the nose, and about the seat; convulsions, epileptic fits, and sometimes privation of speech; starting and grinding of the teeth in sleep; irregular appetite, sometimes loathing food and sometimes voracious; purging with slimy and fetid stools; vomiting; large and hard belly; pains and sickness at the stomach; pains in the head and thighs and lowness of spirits; slow fever with small and irregular pulse; a dry cough; excessive thirst; sometimes pale and unhealthy countenance, and sometimes the face bloated and flushed.  
Persons afflicted with any of the above symptoms should have immediate recourse to Hamilton's Worm Destroying Lozenges, which have been constantly attended with success in all complaints similar to those above described.  
A dose of this medicine given occasionally during the warm season, will effectually prevent "the vomiting and purging of children"—a dreadful disorder, which annually destroys thousands of the infant part of our citizens. It is likewise the mildest and most certain remedy known, and has restored to health and strength a great number when in an advanced stage of this fatal complaint. Particular and plain instructions are given for every part of the necessary treatment in such cases.  
Children generally take this medicine with eagerness; having a pleasing appearance, and an agreeable taste.

**The Restorative Powder for the Teeth and Gums.**  
For the prevention and cure of BILIOUS and MALIGNANT FEVERS is recommended.  
Hahn's ANTI-BILIOUS PILLS  
THIS Medicine has been attended with a degree of success highly grateful to the inventor's feelings in several parts of the West India and in the Southern and Middle States, &c.  
The testimony of a number of persons can be adduced, who have reason to believe that a timely use of this salutary remedy has, under Providence, preserved their lives when in the most alarming circumstances.  
Facts of this conclusive nature speak more in favour of a medicine than columns of pompous eulogy founded on mere assertion.  
It is not indeed presumptuously proposed as an infallible cure, but the inventor has every possible reason that can result from extensive experience for believing that a dose of these Pills taken once in every two weeks during the prevalence of our bilious fevers, will prove an infallible preventive; and further, that in the earlier stages of those diseases their use will very generally succeed in restoring health, and frequently in cases esteemed desperate and beyond the power of common remedies.  
The operation of these pills is perfectly mild, so as to be used with safety by persons in every situation and of every age.  
They are excellently adapted to carry off superfluous bile and prevent its morbid secretions—to restore and amend the appetite—to produce a free perspiration and thereby prevent colds which are often of fatal consequences. A dose never fails to remove a cold if taken on its first appearance: they are celebrated for removing habitual costiveness—sickness at the stomach and severe head-ache—and ought to be taken by all persons on a change of climate.  
They have been found remarkably efficacious in preventing and curing disorders attendant on long voyages, and should be procured and carefully preserved for use by every seaman.

**Hamilton's Elixir,**  
A sovereign remedy for colds, obstinate coughs, asthma, sore throats, catarrhs, and approaching consumptions. To persons who have children afflicted with the HOOPING COUGH, this discovery is of the first magnitude, as it affords immediate relief, checks the progress, and in a short time entirely removes the most cruel disorders to which children are liable. The Elixir is perfectly agreeable, and the dose so small that no difficulty arises in taking it.

**Hamilton's Grand Restorative,**  
Is recommended as an invaluable medicine for the speedy relief and permanent cure of  
Nervous Disorders  
Violent cramps in Consumptions  
the stomach and Lowness of spirits  
back  
Loss of appetite  
Indigestion  
Impurity of blood  
Melancholy  
Hysterical affection  
Gout in the stomach  
Inward weaknesses  
Pains in the limbs and debility  
Relaxations, etc.

**Hamilton's Essence and Extract of Mustard.**  
A safe and effectual remedy for acute and chronic rheumatism, gout, rheumatic palsy, lumbago, numbness, white swellings, chilblains, sprains, bruises, pain in the face and neck, etc. etc.

**Lee's Ointment for the Itch.**  
Warranted an infallible remedy at one application, may be used with perfect safety by pregnant women, or on infants a week old, not containing a particle of mercury or any dangerous ingredient whatever, and not accompanied with that tormenting smart which attends the application of other remedies.

**Hahn's true & genuine German Corn Plaster.**  
An infallible remedy for corns, speedily removing them root and branch, without giving any pain.

**The Genuine Persian Lotion,**  
So celebrated among the fashionable throughout Europe, is an invaluable cosmetic, perfectly innocent and safe, free from corrosive and repellent minerals, the basis of other lotions, and of unparalleled efficacy in removing blemishes of the face and skin, freckles, pimples, inflammatory redness, scurfs, tetter, ringworms, sunburns, prickly heat, &c.

**Hahn's genuine Eye Water,**  
A sovereign remedy for all diseases of the eyes, whether the effect of natural weakness, or of accident.

**Tooth Ache Drops.**  
The only remedy yet discovered which gives immediate and lasting relief in the most severe instances.

**Lee's Infallible Ague and Fever Drops**  
For the cure of agues, remittent and intermittent fevers.

At the place of sale pamphlets may be had gratis, describing cures performed by the above medicines; the number, importance and respectability of which, fully justify every article of this advertisement.

Sold only wholesale and retail, by  
JAMES KENNEDY & SON,  
September 26 King-st. Alexandria.
